We are seeking a manufacturing production supervisor for our Ready Case Beef Plant in Olathe, KS. This role will report to the Production Manager and is responsible for overseeing the daily operations of a production facility, ensuring that production targets are met efficiently and safely by managing staff, coordinating production schedules, maintaining equipment, and enforcing safety regulations within a manufacturing environment.

What You'll Do:

- **Production Planning and Scheduling:** Develop and implement production schedules to meet deadlines, manage workflow, and assign tasks to production team members.
- **Quality Control:** Monitor production processes to ensure products meet quality standards, identify and address quality issues, and implement corrective actions.
- **Staff Management:** Supervise and train production staff, evaluate performance, provide feedback, and address employee concerns.

- **Safety Compliance:** Enforce safety regulations, conduct safety inspections, and promote a safe working environment.
- **Equipment Maintenance:** Ensure proper functioning of production machinery, identify and report equipment malfunctions, and coordinate maintenance activities.
- **Performance Monitoring:** Track production metrics, analyze data, identify areas for improvement, and implement changes to optimize efficiency.
- **Problem-Solving:** Troubleshoot production issues, identify root causes, and implement solutions to minimize downtime and production delays.
- **Reporting:** Generate reports on production progress, quality metrics, and performance to management.

You'll Make an Impact By...

- **Leadership Skills:** Ability to motivate and manage a team, delegate tasks effectively, and provide clear direction.
- **Technical Knowledge:** Understanding of manufacturing processes, equipment operation, and quality control procedures.
- **Analytical Skills:** Ability to analyze data, identify trends, and make informed decisions to improve production efficiency.
- **Communication Skills:** Clear and concise communication with team members, management, and other departments.
- **Problem-Solving Skills:** Ability to identify and resolve production issues quickly and effectively.

Preferred qualification:

- Previous experience in a manufacturing environment, preferably in a supervisory role.
- Knowledge of lean manufacturing principles and continuous improvement methodologies.
